

YDK Technologies Procurement Policy

YDK Technologies regards all of its suppliers as business partners and makes fair and equitable transactions based on mutual understanding and trust.

1. YDK Technologies will provide any customer wishing for transactions with fair and equitable business opportunities irrespective of their business size or transaction track record. When selecting suppliers, it will consider their overall strengths, while evaluating quality (Q), cost (C), technology (T), response (R), services (S) and the health of their business (B) to build continuous cooperative relationships and achieve mutual prosperity.
2. YDK Technologies will conduct honest and fair procurement activities in compliance with applicable laws and ordinances.

It will respect partnerships with suppliers and will not cause them to be disadvantaged through any unfair conduct deviating from normal trade practices.

It will not seek any interest, convenience or other personal benefit from suppliers.

YDK Technologies will strictly control the personal information of suppliers that it has acquired through business and maintain its confidentiality.

It will not disclose any such information to any insider without a reasonable business reason for accessing the information.
